

NEWS OF THE LABOR WORLD

DRIVERS AT THE DODGE MINE QUIT WORK.

They Want to Have a Discharged Driver Reinstated—Orders for More Coaches Placed by the Grand Trunk Company—Make Up of the D., L. & W. Board for Today—Binghamton Is to Have Another Large Cigar Factory—Number of Locomotives Built During Year 1900.

One of the drivers in the Dodge mine was discharged recently for an infraction of the rules, and when he appeared at the foot of the shaft yesterday to renew his position, he was informed that his services were not required.

This announcement caused considerable feeling among the other drivers, and in consequence they quit work yesterday morning. The colliery would like as a result during the day.

Last night a meeting of the drivers was held in Evans' hall, and they decided to send a committee to wait on Superintendent Loomis and ask for the discharged driver's reinstatement. It is expected the matter will be amicably adjusted.

Five More Coaches.

Orders have just been placed by the management of the Grand Trunk Railroad company for five more new coaches of the "2,000 Series," five of which were recently placed into service on the western division. The new coaches, work on which has already been begun at the Point St. Charles shops, will be the best that have yet been turned out of that establishment, which has a reputation second to none on the continent. The plans show a richer ornamentation and decoration in the interior of the coaches, the general style being Italian renaissance. Mr. W. McWood is giving the construction of these coaches his personal supervision.

The "2,000 Series" are of the wide-ventricle order, sixty-eight feet in length, and equipped with the latest improvements in air brakes and signals. The weight of the cars is 72,100 pounds, the seating capacity being seventy-two passengers. The windows, which are of double-paneled type, are finished in a combination of oak and mahogany, the interior of cars being done in quartered oak. The seats are of the standard reversible pattern, upholstered in crimson plush. The tables are covered with Brussels carpet, the floor of the large smoking room, in connection with the dining room, is also carpeted, being done in linoleum. The other arrangements, sanitary and illuminating, are in keeping with the general order.

Settlement Not in Sight.

Superintendent Rose, of the Delaware and Hudson coal department, was visited yesterday by a committee representing the miners employed at the Marvino shaft, who have been out on strike for some time. The men are anxious to resume work and informed Superintendent Rose that the miners were not responsible for their quitting work.

They refuse to cut the headings at \$1.25 per car, which is below the fixed charge, they claim, paid at other mines. They also demanded that the mine will not be open until the same contract miners go back to work at the regular scale.

D., L. & W. Board for Today.

Today's D., L. & W. board is as follows:

THURSDAY, FEB. 7.

Wild Cats, East—5 p. m., J. J. O'Hara; 10:30 p. m., Frank Wall.

PHRIDAY, FEB. 8.

Wild Cats, East—12:30 p. m., T. Nauman; 2 p. m., John Henigan; 4 p. m., J. A. Bush; 5 p. m., A. H. Rose, with O. Randolph's men; 6 p. m., John Carter; 7 p. m., R. K. O'Brien; 8 p. m., J. J. Larkin; 9 p. m., W. H. Bertelme with Donnan's men; 10 p. m., J. Garity; 11:30 p. m., J. Werra, with J. Bartholomew's men; 1 p. m., A. F. Muller; 2 p. m., F. Hallett; 3 p. m., H. Bishop; 4 p. m., J. J. Dally; 5 p. m., J. J. Werra, with J. Bartholomew's men; 6 p. m., east George Foundler; 7 p. m., west, James Carter; 8 p. m., east, Elmer, with H. Doherty's men; 9 p. m., west Tom Cough; three engines, James Cough; 7 p. m., west from Cayuga, with J. M. O'Brien; 7 p. m., east from Say Aug, Edward McAllister.

Fuller—10 p. m., F. E. Secor.

Fishers—8 p. m., Thomas; 11:30 p. m., Moran; 7 p. m., Murphy; 9 p. m., Langue.

Hawesing Engine—7 p. m., J. A. Bush; 8:30 p. m., Stanton; 7 p. m., Magover.

Wild Cats, West—4 p. m., J. H. Masters; 6 p. m., D. Hanger; 7 p. m., R. O'Brien; 8 p. m., John Galagan; 9 p. m., Lattimer, with Huparick's men; 10 p. m., X. O'Brien; 11 p. m., R. Hanger's men; 12 p. m., J. Hanger.

Nation—Conductor Knapp and crew will go to Say Aug on Train 28 Thursday, Feb. 10, and work from there as Summit at 7 p. m. Binghamton Engine will go out with Conductor Francis Hallett next trip.

This and That.

The Pittsburg Boiler Scale Resolvent company recently received from the United States war department an order for a quantity of boiler scale resolvent to be shipped to the government ice plant at Holo, Philippine island.

The Edward P. Allis company, of Milwaukee, Wis., has received its first business from the Philippines, in the form of an order for the machinery to equip a band sawmill for the manufacture of lumber. The machinery will cost \$10,000.

The American Cigar company, affiliated with the American Tobacco company and other big firms included in the so-called "tobacco trust," is to have a cigar factory in Binghamton, that, according to claims, may employ 3,000 people. In time the number of employees may be increased to 5,000.

The official report of the number of locomotives built during 1900 by the private companies in America—those outside the railroad shops—shows that 3,153 locomotives were constructed by the fifteen companies. Of these one Philadelphia firm, Baldwin's, built two-fifths of the entire output. The year's product of the fifteen companies was 27 per cent. more than it was in 1899, when the record was broken. The number constructed that year was 2,472. The number of cars built during 1900 was 12,122. This is exclusive of the cars built by railroads in their shops. Of the 12,122 cars, 112,670 were freight, 1,345 passenger and 6,601 street cars. The number of cars exported were: Freight, 2,561; passenger, 121, and street, 748. The total output in 1899 was 239 cars less than in 1900. The steel cars built in 1900 were 14,463, nearly 4,000 more than in the preceding year.

MRS. NATION'S DISCIPLE.

An Unknown Woman Plays with Pool Balls in Milwaukee Saloon.

By Exclusive Wire from The Associated Press.

Milwaukee, Feb. 7.—An unknown female, emulating the crusade of Mrs. Nation, today entered a saloon at Eleventh and Jerod streets, seized an armful of pool balls and hurled them about with such good aim that the mirrors and other glassware about the place were quickly demolished. Habitués of the saloon scrambled for the door when the woman began throwing the balls. She finished the work of demolition and escaped before an officer could be brought to the scene.

THE RICE CASE.

General MacArthur Asked to Send Statement of Facts.

By Exclusive Wire from The Associated Press.

Washington, Feb. 7.—Adjutant General Corbin called General MacArthur today to forward immediately a statement of facts in the case of George T. Rice, editor of the Daily Bulletin at Manila, recently deported to the United States, on the alleged ground that he was a "dangerous incendiary and a menace to the military situation."

This information is desired by the secretary of war to enable him to answer the senate resolution of inquiry on the subject.

STATE OF STEEL NEGOTIATIONS

A Participant in the Deal for Consolidation Contends That No Genuine Statement of Terms Has Been Given Out.

By Exclusive Wire from The Associated Press.

New York, Feb. 7.—The Evening Post today has the following:

A participant in the pending negotiations for the consolidation of the steel interests said today:

"No matter what statements purporting to be authoritative may have been published, I assure you that no genuine statement giving terms of the negotiations has been given out, and what is more, none will be communicated to the public for several days."

The consolidation of the steel interests has been in progress and they are expected to advance further.

It has been evident that certain negotiations have been going on and what has been said concerning their aims is not all fiction. The essence of the situation is there.

Here are a number of great steel companies, each successful, each independent, each directed by aggressive men, each operative in a field of its own.

The competition exists and may appear to any one of the companies to enter upon the province of another. The intelligence of the present undertaking lies in the recognition of the moment as the supremely opportune time for such action as will forestall possible conflict and establish complete and permanent harmony.

To suppress competition is no part of the conception or purpose; the aim purely is to so unify interests that none of these splendid organizations shall suffer any impairment through possible and unnecessary clashing.

EFFORT TO PREVENT PENNSYLVANIA DEAL

Richard H. Coffin Endeavors to Restrain the Erie from Consummating the Agreement.

By Exclusive Wire from The Associated Press.

New York, Feb. 7.—Justice Fitzgerald, in the Supreme court this afternoon reserved the decision on an application of Richard H. Coffin to restrain the Erie railroad from consummating the agreement to purchase the Pennsylvania Coal company's property and two railroads, in connection therewith, for \$27,000,000.

It is alleged by the plaintiff that J. P. Morgan & Co. obtained the controlling interest in the properties for \$27,000,000 and induced a majority of the directors of the Erie railway to purchase it for \$27,000,000, leaving a profit of \$6,000,000.

The allegations are denied. The defendants say that the profit will not exceed \$3,000,000, which it is said, is only a fair one.

VERDICT IN HUNTER CASE.

Three Men Suspected of the Murder Are Under Arrest.

By Exclusive Wire from The Associated Press.

Philadelphia, Feb. 7.—The coroner's jury at Riverside, N. J., in the case of Washington Hunter, the aged farmer who died from the effects of a murderous assault made upon him by three burglars at midnight Jan. 25, today rendered a verdict that Mr. Hunter's death was caused by unknown persons. Numerous witnesses were called, but no evidence was adduced that would give a clue to the identity of the murderers.

Three men, John Keough, Frank McCloy and Robert Lee, are now under arrest on suspicion of complicity in the crime.

War on Cigarettes.

By Exclusive Wire from The Associated Press.

New York, Feb. 7.—Another railroad has decided to place the ban upon cigarette smoking. Following the example of the Chicago, Burlington and Quincy and the Chicago, Rock Island and Pacific, the conservative New York, New Haven and Hartford railroad has banned the habit and cigarette smokers must go. This anti-cigarette movement on the part of railroads is one of business not sentiment. Smoking has been found to lead to color blindness and this leads to a wrong reading of the signals, a matter of great importance in railroading.

Contract for a Cruiser.

By Exclusive Wire from The Associated Press.

Washington, Feb. 7.—The naval board on construction decided today to award one of the contracts for the protected cruisers to Naval Yard, Philadelphia, provided that firm will reduce certain items left out in their tender and accept as a compromise for the same an agreement to certain parts of the specifications. The board will continue the discussion of the three other tenders for the two remaining cruisers.

Judgment Against Castellanos.

By Exclusive Wire from The Associated Press.

New York, Feb. 7.—A judgment by consent was entered in the Supreme court this afternoon against Anna, Countess De Castellanos and her husband, Don, Comte De Castellanos, for the sum of \$10,000, in a suit brought against them by Eugene Fishel. The suit was brought to recover on three notes which were executed by the defendants jointly on Feb. 6, 1900.

Old-fashioned Training

Its Strong and Weak Points.

The strong point of the old-fashioned training was the stress laid upon morality and virtue. "Be good and you'll be happy," was the common precept set before the growing child. But as the girl grew up to maidenhood she was often sorely puzzled to reconcile those past teachings with her present condition. She was good. Her soul was pure as the lilies of her garden. Her heart was undefiled. And yet she was desperately unhappy. Reason of physical ailments common to women.

This was the weak side of old-fashioned training: It ignored the

needs and requirements of the body. All its effort was to guide the heart and mind. The body might stumble along anyhow, and it generally did.

Many a sweet-faced, modest-minded young girl has had her first doubts of the goodness of Providence come in through the door of physical suffering.

"Why must I suffer in this way?" she asks. "Why does my back ache, my head throb and my side pain, so that I am fain to creep away into a darkened room and forego the pleasures which belong to my season of life?"

NO ANSWER COMES as a rule to these questions. The young woman looks around and sees scores of similar sufferers. She is told it is a part of the burden laid upon women, and she shapes her shoulders to her heavy load.

This is all a mistake. Proper training, proper physical care would many times prevent these miserable conditions. But in any case, however distressing the present condition, it can be cured by the use of Dr. Pierce's Favorite Prescription, if it is a disease curable by medicine.

"I write a few lines to thank you for your advice and grand remedies, to which I owe my health, and perhaps my life," says Miss Flora L. Greer, of 107 Howe Street, Akron, Ohio. "My trouble started during my childhood, but did not prove serious until 1893, when I met with an accident caused by a horse running away. From that time I did not see a well day. I suffered at every monthly period with terrible headache, irritation of the spine and pain in my heels so I could not bear them resting on the softest pillow. What I suffered pen could never describe. I had soreness through my hips and ovaries all the time and constant backache. Was afraid to be alone, imagined that every one hated me, and everything looked like a mountain. One doctor would tell me one thing and another would say something altogether different, but they only relieved me. I then wrote you in April,

1899, through the advice of a neighbor, and followed your advice from April to July. I took five bottles of Doctor Pierce's Favorite Prescription, and four vials of 'Pellets.' Have not had a single symptom of my old trouble so far. Can sleep good nights, work hard, and eat solid and substantial food without distress. There are several of my friends taking your medicines with the best results since they have seen how they helped me.

"If any one wishes to know more of my case and will enclose a stamp I will answer any question they wish to ask."

HEALTH FOR WOMEN. The use of Dr. Pierce's Favorite Prescription has brought health to thousands of hopeless women. If you are sick it will almost surely bring health to you. All the hundreds of thousands who have used "Favorite Prescription" for womanly ills, only two in every hundred have failed of a perfect and permanent cure. And these two in every hundred have been benefited, their pains eased, their burdens lightened, their lives made happier.

Dr. Pierce's Favorite Prescription establishes regularity, dries enfeebling and unhealthy drains, heals inflammation and ulceration and cures female weakness.

From the first change of life, when the girl becomes a woman to the last change of life it is a "Godsend" and a preservative of health and a cure for womanly ills.

"Your letter just received," writes Miss Rose Killebar, of 43 West Sharpshoot St., Germantown, Philadelphia, Pa. "Words fail to express how thankful I am to you for your advice. I must tell at the length of time I have been using your medicine I have found it to be the most wonderful and best remedy for female troubles that I ever have tried. Sorry I did not know of your Favorite Prescription many years ago, but will gladly tell my friends who are suffering, of your wonderful medicine."

There is no alcohol in "Favorite Prescription" and it is entirely free from opium, cocaine and all other narcotics. Sick and ailing women are invited to consult Dr. Pierce, by letter, free. All correspondence held as sacred and womanly confidences guarded by the same strict professional privacy which is observed in the personal consultations of Dr. Pierce and his staff (numbering nearly a score of physicians) at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Address Dr. R. V. Pierce, Buffalo, N. Y.

It sometimes happens that the dealer tempted by the little more profit paid by less successful preparations, will try to press a substitute upon the customer, claiming that "it is just as good as Pierce's." It is well to remember at such a time, that the claims of superiority made for Dr. Pierce's Favorite Prescription do not rest on mere words, but upon cures. Thousands of weak women made strong and sick women made well testify to its superiority over other put-up medicines for women.

THE BIBLE OF THE BODY, is a title which has been aptly applied to Dr. Pierce's Common Sense Medical Adviser. In plain English it points the way to womanly health and happiness, and fully discusses and illuminates those great and grave questions which involve the well-being of women. This great work, containing 1008 large pages, and over seven hundred illustrations, is sent free on receipt of stamps to pay expense of mailing only. For the volume bound in durable cloth send 31 one-cent stamps, or 21 stamps for the book in paper-covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

I Do Not Treat All Diseases, but Cure All I Treat.

I Treat Men Only and Cure Them to Stay Cured.

Specialist in Diseases of Men. Of the State Electro-Medical Institute, 400 Lackawanna Ave., (Over the Paris Store), Scranton, Pa.

THE DISEASE ITS CAUSE ITS EFFECT ITS CURE

An enlargement of the veins of the scrotum, causing a knotted or lumpy or heavy, dragging pain in small of the back, extending down through legs, low spirits, weakness of body and brain, nervous debility, partial or complete loss of vigor, and often failure of general health.

If you are a victim of varicocele, come to our office and let me explain to you my new and unique method of curing it. You will then not wonder why I have cured so many hundreds of cases of varicocele in the past two months. Under my treatment the patient improves from the very beginning. All pain subsides, the veins gradually subside. The pool of stagnant blood forced from the dilated veins, which rapidly assume their normal size, strength and soundness. All indications of the disease and weakness vanish completely and forever, and to their stead comes the peace, the power, and the pleasure of perfect health and restored manhood.

The Electro-Medical Specialists of the Different Departments of this Institute, by their special conducted Electro-Medical Treatment, are making many wonderful cures in diseases of the KIDNEYS, RHEUMATISM, PARALYSIS, PHLEBS, ETC., PRIVATE DISEASES, BLOOD POISON, NEURALGIC DEBILITY, BRUISES, STRICTURE, HYDROCELE AND ALLIED AND ASSOCIATE DISEASES OF MEN.

TREATMENT BY CORRESPONDENCE.

Most cases can be treated successfully at home. One personal visit is preferred, but if it is impossible or inconvenient for you to call at our office, write a full and unreserved statement of your case, plainly stating your symptoms. Physicians having state licenses to treat are cordially invited to consult us. We make no charge for private counsel, and give to each patient a legal contract, to hold for our promises. If you cannot call at the institute today, write. Address all communications to

State Electro-Medical Institute,
